County Withdraws Hudgins Lease

After several months of negotiations, the county commission this week withdrew all its offers to Hudgins Fish Company and voted not to renew a lease which the company holds on county land at the west approach to Flagler Memorial Bridge.

The city of West Palm Beach and the county have been trying for several months to work out arrangements for rebuilding the bridge approach. The commission voted Monday not to renew the Hudgins lease Jan. 1.

Mr. and Mrs. D. C. Handling and children moved the past week from the Cherry Ranch on Connors Highway east of Canal Point to Loxahatchee where they are now making their home.

Leases Are Okehed For Airport Rental

Two major leases which will give the county commission an annual \$30,000 rental for facilities at Palm Beach International Airport were approved this week.

One of the leases provides for a base operator — the Butler Aviation Corp. The organization will operate the base, collect landing and the down fees and was given an exclusive franchise for sale of gas and oil. The county will collect a minimum rental of \$15,000 or five percent of gross business whichever is greater.

The Butler lease was approved over the objection of chairman Lake Lytal who said he was against giving any exclusive franchise in airport leases. Lytal voted for the measure but officially registered his objection to the franchise clause in the lease.

The second approved lease was with E. Farnell and Company, Inc., dealers in aviation electronics and service. The firm will also pay \$15,000 a year or five percent of its gross, whichever is greater.

The commission also heard a complaint from residents of Frank St., near West Palm Beach, claiming the Ambrose Inn on Okeechobee Road to be a public nuisance.

Awarded a bid for a radio system to serve the county zoning an bridge department to Motorola over the objection of a General Electric representative who charged there was an error in specifications for the system which prohibited his company to submit a bid.

Referred to Commission Roy Michael, a letter calling for establishment of a committee to work with migratory workers.

Approved transfer of a Lantana Airport lease from International Air Service to Palm Beach Aviation, Inc. and turned down the latter offer to collect landing and tie down fees at the port and share the revenue with the county. The commission ruled no fees shall be charged at Lantana.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The county commission this week voted to call for bids for dredging a section of Lake Osborne and selling the spoil on a contract basis.

The commission, earlier, held a public hearing on the project and received no objections to the proposal.

The board, at the request of Commission Roy Michael, voted to approve a three year lease for the dredging work and called for bids on Oct. 1 for sale of lake bottom sand.

The project is designed to deepen the waters of Lake Osborne for more extensive boating and recreational facilities.

The commission also approved a request from Island Estates to clean out a section of the lake with

county crews with the developers to pay the bill.

In another action, the commission extended two garbage franchises, covering six collection districts, for an additional five years. The extension, according to the franchise holders, was needed to purchase additional equipment.

The franchise extensions were opposed by the Mission Development Company, who lands are located within the franchise area. The company asked the right to set up its own collection system.

The board also approved a drawing for extension of Okeechobee Road, three miles west of State Road 7. The plan calls for four lanes and a new section of the highway. The board agreed to attempt to get right of way for the project.

Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

Christian Science Group Of Canal Point

The vital importance of trust in spiritual power and substance will be emphasized at Christian Science services Sunday.

Bible readings will include this verse from Psalms (56:4) "In God I will praise his word, in God I have put my trust; I will not fear what flesh can do unto me."

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy in the Lesson-Sermon entitled "Matter" will include the following (278:229-32): "We define matter as error, because it is the opposite of life, substance, and intelligence. Matter, with its mortality, cannot be substantial if Spirit is substantial and eternal."

The Golden Text is also from Psalms (81:9, 10): "There shall no strange god be in thee; neither shalt thou worship any strange god. I am the Lord thy God, which brought thee out of the land of Egypt."

Mr. and Mrs. A. E. Culberson have returned to their home in Pahokee from Boone, N. C., where they spent the summer.

Coaches Speakers At Rotary Club

The three coaches of the Pahokee High School football squad, Web Pell head coach, Bill Howard, line coach, and Carney Wilder, backfield coach, were guest speakers at last weeks Thurs. luncheon meeting of the Pahokee Rotary Club. Introduced by William S. Plumer, program chairman, the speakers talked about the prospects of the Blue Devils for a successful football season in the southern division of the Suncoast Conference which don't seem too bright at the present time. The players are making steady progress in their pre-season training program but this season's squad is even smaller than usual, having only 26 men, which means there will be little depth in reserve strength; and with only three letter men, Jimmy Maxwell, Doug Blanton and Charles Goodson returning, the team will be lacking game experience, as it starts the season, the coaches said.
